

build understanding. community.

Understand the role of developers in building communities

Register for ULI UrbanPlan Workshop (LAR 582.021)

The Urban Land Institute's Urban Plan for University's workshop is a project-based learning curriculum that engages both undergraduate and graduate students. Over the course of the seminar, students take on roles and form teams to respond to a Request for Proposals for a fictitious block-scale project site. They must reconcile the competing agendas and consider tradeoffs to create a well-designed, market-responsive, and sustainable project.
